

Instructions for manuscript submission to the Special Issue of RM (conference Lumdetr2018)

Instruction from Elsevier:

The EVISE® submission system is now ready for article submission for the special issue, “**The 10th International Conference on Luminescent Detectors and Transformers of Ionizing Radiation (LUMDETR 2018)**”

This is a virtual special issue where there will be no standalone issue and articles will be published online together.

Instructions for submission:

The submission website for this journal is located at:

<https://www.evise.com/profile/api/navigate/RADMEAS>

To ensure that all manuscripts are correctly identified for inclusion into the special issue, it is critically important that authors select the name of the special issue as follows when they upload their manuscripts:

VSI: Proc. of LUMDETR 2018

Instruction from conference organizers:

- Only manuscripts related to the performed conference presentations can be published (max 1 manuscript per participant)
- Length of manuscripts typically 4 pages for contributed and 6 pages for invited presentation, but is NOT strictly limited and authors can feel free to allocate all the results they have presented
- Standard referee procedure (six Associated Editors have been nominated from conference participants), emphasis will be given to the originality and relevance of manuscripts (not an incremental research)
- Submissions will be accepted up to October 15, 2018
